For those who shape spaces and redefine possibility.

**Designed by nature,
perfected by technology**

This collection is a tribute to nature–where organic forms seamlessly merge with cutting-edge technology. Inspired by nature's rhythms, we translate elements like the curve of a leaf, the flow of a river, and the grandeur of a mountain ridge into surfaces that enrich and elevate interiors.

Introducing **'NATURA'** – a stunning collection of natural surfaces in marble and stone designs, meticulously crafted using the latest advancements in surface technology. Each piece in this collection is a masterpiece, bringing nature's timeless beauty into contemporary spaces.

ECO LIFESTORY

We are dedicated to recovering and enhancing what was once considered waste, transforming it into vital resources for a production model inspired by nature's balance, where nothing is wasted.

CERTIFIED BY :

SNF WATER SCIENCE | GRIHA

Turning waste into Value

For the first time, NITCO has certification with SNF France and GRIHA Green rating for Integrated habitat building, a global leader in sustainable solutions, to revolutionize tile manufacturing.
We've implemented a production process that uses 100% recycled water, significantly reducing our environmental impact. This pioneering approach reflects our commitment to preserving natural resources and promoting responsible manufacturing. The result is a truly sustainable collection– embodied in every tile of the NITCO Natura range.

Shade Difference Between Surface

NEAR TO ZERO

Crafted for cohesion: one shade, endless surface expressions.

Timeless by nature, elevated by design.

For the first time, a single design and shade is flawlessly carried across six distinct surface finishes–a true innovation in tile manufacturing. This breakthrough empowers architects with unmatched flexibility, enabling a seamless aesthetic across varied applications without any shade variation. It's a testament to NITCO's R&D excellence and a dream solution for cohesive, high-impact design.

Shades of Beauty

Rooted in the calming tones of earth, Natura explores a palette inspired by clay, stone, sand, and botanical impressions. Every shade in this collection speaks of warmth, stillness, and grounded elegance – from muted browns and beiges to soft greys and natural prints. Designed to feel both timeless and contemporary, this collection seamlessly fits into a variety of spaces – residential or commercial.

To bring these tones to life, Natura Earth is offered in five advanced surface finishes: Finitura, Tektura, Velvique, Burly, and Neuro Lustro.
Each surface interacts uniquely with light and texture, giving designers the flexibility to craft spaces that feel expressive, layered, and refined.

Grounded in Nature, Designed for Living

Inspired by the quiet strength of natural elements, ESSENZA and EDEN bring two distinct design narratives to life. ESSENZA channels traditional artistry with bold, black-and-white patterns that add rhythm and character to any space.
In contrast, EDEN draws from the organic world – its lush foliage and earthy tones evoke a sense of serenity and effortless balance. Together, they create a visual dialogue between craft and nature, perfect for spaces that seek warmth, identity, and timeless appeal.
